

JULIA LILES is back in Cambodia! Praise the Lord for opening the door to return! She passed 3 Covid tests, completed her 2-week quarantine and is eagerly integrating into the ministry of Phnom Penh City Central Church alongside **James & Agape Bermejo**.

JOEL & LEAH SANDERS and family have been approved to serve temporarily in Kenya while waiting for Malaysia to open up. Pray for negative Covid tests, safe travel and a smooth adjustment. They will teach in the Bible school and engage in church ministry with **Robby & Tegwen Heath** under the Kenyan national leadership.

VISAS: Rejoice that **Banacs, Heaths, Team Timor** and **Team Vietnam** were able to obtain short-term extensions. Pray for provision of long-term visas for all. Pray for **Team Taiwan, Honculadas** (Cambodia), and **Improsos** (Myanmar) still waiting for borders to open and visas to be granted.

HEALTH: Pray for **Team Laos** members struggling with significant health issues. Borders are closed due to Covid so they can't travel out to access better medical treatment.

TCM BIBLE SCHOOLS WORLDWIDE

KENYA: Classes resumed in September at the residential Bible school in Thika. Pray more students will register to attend the next school year starting in January. The ministry training center in Mombasa opens in October.

MALAYSIA: Pray for plans to open a Bible school next year. Ask God to put it in the hearts of local believers to prioritize attending Bible school over business.

MYANMAR: Classes continue online for 5 students since schools remain closed—a blessing in disguise as **Gardner Improso** is able to teach from the Philippines while **Dan Banac** teaches from inside the country.

NORTH BRAZIL: **Joe Campos** reports, "Our Bible school reopened Sept. 17. We spent the Covid restriction time restructuring the Bible school to fit our current needs and to guarantee that our training can continue if a similar circumstance ever happens. As a result we launched the training completely online. Our students register, attend class, submit their work, and order their books online and can watch the classes again on an exclusive YouTube channel. The success of this program has been incredible! We have 39 students registered, and the interest for new students keeps growing. We have students from 4 different regions in the country, something we never thought was going to be possible. We praise the Lord for this ministry and the leaders He has raised to run our training."

PHILIPPINES: Pastor Jun Pielago writes, "Learning never stops in TCM-Philippines' Bible schools! The pandemic is not quite a hindrance for our 4 residential IGBI campuses and 2 training centers to continue training for ministry! A total of 135 are presently enrolled with 43 first year students, 36 second year, 23 third year, and 15 interns. The interns are assigned in churches and will graduate in April. All classes started in June in a classroom setting, except IGBI-Ozamiz which is adopting a modular online approach for one semester. Pray that churches and individuals will regularly support teachers and students to cover their basic needs. Another prayer item is for supply of good reference books and study materials for the Bible school libraries.

SOUTH AFRICA: Grace Theological Education And Ministry Schools (G-TEAMS) in Boksburg, Soshanguve, and Springs reopened Sept. 17 with an average of 12 students each. Not all students are back yet—those working should return once they get Saturdays off. Those who have returned remain excited to study. Soshanguve and Springs campuses will continue physical classes, but Boksburg will try a combination of online and in-person classes to accommodate students who work and/or live in other provinces. Several students are already

serving as pastors and church workers. Once their training is complete, they can be of immense help in local and national ministries.

VIETNAM: Rejoice in a unique opportunity to train a group of students in Hanoi in the Word!
